INDEPENDENT AUDITOR'S REPORT ON REVIEW OF CONDENSED INTERIM FINANCIAL STATEMENTS

Introduction

We have reviewed the accompanying condensed interim statement of financial position of The First Microfinance Bank ("the Bank") as at June 30, 2022 and the related condensed interim statement of profit or loss and other comprehensive income, condensed interim statement of changes in equity and condensed interim statement of cash flows, and the notes to the condensed interim financial statements for the six months then ended (here-in-after referred to as the "interim financial statements"). Management is responsible for the preparation and fair presentation of these interim financial statements in accordance with the International Accounting Standard (IAS) 34, Interim Financial Reporting, issued by the International Accounting Standards Board (IASB), the requirements of the Law of Banking in Afghanistan and directives issued by Da Afghanistan Bank. Our responsibility is to express a conclusion on these interim financial statements based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements (ISRE) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review nothing has come to our attention that causes us to believe that the accompanying interim financial statements do not give a true and fair view of the financial position of the Bank as at June 30, 2022, and of its financial performance and its cash flows for the six months period then ended in accordance International Accounting Standard (IAS) 34, Interim Financial Reporting, issued by the International Accounting Standards Board (IASB) and the requirements of the Law of Banking in Afghanistan and directives issued by the Da Afghanistan Bank.

Emphasis of Matter

Without qualifying our opinion, we draw attention to note 5.2.1 to the financial statements which states that due to the economic crisis in the country, the repayment capacity of customers of the Bank has reduced during the period. As the result, the quality of loans of the Bank has deteriorated which required further impairment loss to be recognised against these loans under the "Asset Classification and Provisioning Regulation" by DAB. However, DAB vide letter no 11068/9588 dated 21 December 2021, instructed the Bank not to change the assets classification of loans and advances of the Bank from their status as of 30 June 2021. Hence,

impairment loss on loans and advances of the Bank has been calculated on the basis of their status as of 30 June 2021, and no further provision has been made against those loans which subsequently did not perform well due to the current situation in the country. If DAB had not granted this relaxation to the Bank, the impairment allowance against loans and advances of the Bank would have been increased by AFN 1,947,707 thousands for the period ended June 30, 2022, resulting in increase in the loss before tax by the said amount.

5.2.1 Due to the economic crisis in the country, the repayment capacity of customers of the Bank has reduced during the year. As the result, the quality of loans of the Bank has deteriorated which required further impairment loss to be recognised against these loans under the "Asset Classification and Provisioning Regulation" by DAB. However, DAB vide letter no 11068/9588 dated 21 December 2021, instructed the Bank not to change the assets classification of loans and advances of the Bank from their status as of 30 June 2021. Hence, impairment loss on loans and advances of the Bank has been calculated on the basis of their status as of 30 June 2021, and no further provision has been made against those loans which subsequently did not perform well due to the current situation in the country. If DAB had not granted this relaxation to the Bank, the impairment allowance against loans and advances of the Bank would have been increased by AFN 1,947,707 thousands for the period ended June 30, 2022, resulting in increase in the loss before tax by the said amount.

5.3 Provision for expected credit loss computed in accordance with IFRS 9 amounts to AFN 2,766,751 thousands which is higher than the amount held by the bank as per its provisioning policy.
